

AQUASPHERE™ WAX

General-Purpose Jewelry Injection Wax

AquaSphere wax is a general-purpose jewelry injection wax. Its unique formula makes it ideal for a wide range of designs, while offering high fluidity and very fine detail reproduction.

AquaSphere wax was designed specifically for the reproduction of thin sections. It offers:

- Strength and flexibility needed to easily remove it from the mold
- Low shrink
- Exceptional surface finish and toughness
- Extremely low ash residue

- Exceptionally consistent results

AquaSphere wax is sold in pastillated form and is available in four colors: aqua, blue, pink or red.

All AquaSphere waxes are manufactured using only the purest synthetic and highest quality natural raw materials available. They undergo stringent quality control testing in a state-of-the-art laboratory to ensure the highest level of quality.
